Youth Exchange SAVE OUR WATER

06/15. SEPTEMBER 2019 JAZAK, SERBIA

Co-funded by the
Erasmus+ Programme
of the European Union

WELCOME ON YOUTH EXCHANGE (YE) SAVE OUR WATERS

About project

Water is source of life. Without water the world as we know it, couldn't exist. Youth exchange "Save Our Waters" will bring together 30 youth from 5 countries (Lithuania, Romania, North Macedonia, Bosnia and Herzegovina and Serbia) with aims to deepen knowledge about impacts of our everyday activities on water resources and how we can change them to save water.

Two thirds of the earth's surface is covered by water and the human body consisting 75 percent of it, it is evidently clear that water is one of the prime elements responsible for the life on earth. Nowadays, worldwide, there are lots of people who don't have access to drinkable water. Significant influence on water scarcity is affected by growing world population, climate changes, irrational usage, wars, etc.

Participants in youth exchange will develop different tools for sharing knowledge about importance of water conservation and protection in local communities.

Each national group will have 5 youth participants age from 18 till 23 years and one youth leader (no age limit).

The venue, Jazak, Serbia

Youth Exchange will be organized in Center for rural development and applied learning – CERUDA <http://www.ceruda.org>, in village Jazak on the Fruška Gora mountain in Vojvodina, north part of Serbia.

The village of Jazak is situated on the southern slopes of the mountain ridge of Fruška Gora, 30 km from Novi Sad and 60 km from Belgrade airport. Jazak is small village with around 800 inhabitants. We chose this venue because there is a water bottling facility under the brand "Jazak", but households do not have access to drinkable water. Participants will have an opportunity to explore what are reasons for this situation and how much it effect life and work of people in Jazak.

More info about CERUDA you will find on <http://www.ceruda.org/>, about Jazak on <https://en.wikipedia.org/wiki/Jazak> and about Novi Sad on https://en.wikipedia.org/wiki/Novi_Sad

Accommodation, food and work

According to the rules of Erasmus+ Programme we will cover 100% of food and accommodation costs. **There is no participation fee for youth exchange.** But active participation in all activities is obligatory for all participants and youth leaders.

Participants will be accommodated in CERUDA and holiday home "Jazacka bajka", which is 50 meters from working place in CERUDA.

Rooms will be for 5 and 6 persons. Each room have bathroom. Food will be prepared locally and part of responsibility for food preparation will be on participants.

We will work in premises of CERUDA but also we will have activities outside. **Bring shoes and clothing for work outside in nature, walking in nature and sports activities. We expect nice weather but nights in Jazak can be cold so please bring some jacket or sweater. Mosquito repellent is also recommended.**

Youth exchange will be lead and implement by participants and youth leaders. Every group will be responsible for preparing and lead part of the youth exchange. Detail arrangements will be made between youth leaders after 20. August when group leaders and participants are selected by partner organizations. Each partner organization has a task to prepare the youth leader and participants for the youth exchange and help them to organize their travel.

Every country group will have a task to present their country to the other participants during the YE. Time for presenting every counties will be during the Intercultural nights. Also, all youth groups have to make a presentation about water capacities and problems with water resources in its country.

For Intercultural nights we expect that you present to the other participants why people in your country are special and what are facts about your country that we need to know. Also, you can bring some traditional food and drinks to present to others. Each team will have up to 30 minutes to present its country to others. Use your imagination, knowledge and creativity and make it interesting and funny. National clothes, music, flags and other things are welcomed! 😊

Travel

Each project partner is responsible for organization of travel for its group. Money for travel cost will be refund to project partner organizations after youth exchange and after Environment Engineering Group (EEG) as hosting organization receive all tickets and boarding passes.
